

# DIGITAL LITERACY

Teaching Digital Citizenship to our students.

## Discerning Media

### Consumers:

Teach students to be able to determine what information is factual and accurate vs biased and opinionated.

**SAY NO! TO CLICKBAIT**

## Protection of information

Do students know how to create passwords? Do they know how to protect their own information? Do they know how to protect the information of others?

## Content Curation

Do you model what it means to love the subject? Do you create an environment that allows your students to love the content as well?
